Luis López Earns Endorsement by Planned Parenthood Advocacy Project

Planned Parenthood Advocacy Project Los Angeles County

Dear Friend,

I'm proud to announce that Planned Parenthood Advocacy Project has endorsed our campaign for Assembly. This endorsement is another that shows my dedication to protecting access to healthcare, my proven leadership for privacy and progressive values, including women's full equality, and my readiness to lead the way in stopping the reckless attacks on our diversity and hard-won progress here in California by the Trump Administration.

"Luis has a demonstrated commitment to protecting and expanding reproductive health care access in Los Angeles," said Celinda Vazquez, Vice President of External Affairs at Planned Parenthood Advocacy Project Los Angeles County. "His deep

understanding of the issues impacting Planned Parenthood health centers will no doubt make him an effective champion for women's health in Sacramento. Californians can count on Luis to fight for access to critical care like birth control, STD testing and treatment, and life-saving cancer screenings. For these reasons, we proudly endorse Luis Lopez for Assembly."

As longtime leader in healthcare and seven-year Board Member of Planned Parenthood Los Angeles, I have been on the front lines fighting to ensure that Planned Parenthood health centers are fully funded and have the resources needed to provide care to millions of men, women, and families. I know that thousands of Angelenos rely on Planned Parenthood to provide basic, preventive day-to-day care. That's why I will never stop fighting to protect the crucial services Planned Parenthood provides.

With the Trump Administration threatening to take away access to reproductive and preventive care and overturn hard-won privacy rights for America's women, I will continue to stand up strongly for women's rights and full access to reproductive healthcare. We must all work together to fight for and protect the rights of women, immigrants, people of color, the LGBT community, the disabled, workers, artists, seniors, and the most vulnerable.

Please join my campaign to win healthcare for all and to protect our progress for access to preventive and reproductive care in California. Come volunteer at my campaign office, at 1737 Colorado Blvd. in Eagle Rock, or make a [contribution](#) to my campaign. People power like ours will carry us to victory, bring my district and our communities together, and make California a better place.

Sincerely,

A handwritten signature in black ink, appearing to read 'Luis Lopez', with a large, stylized initial 'L'.
