

I wanted to make sure you saw Katie Porter's Q4 fundraising numbers and note that she outraised her Republican Opponent, Mimi Walters, who posted \$253,722.29 for Q4, proving that Katie is in the strongest position to win in June and unseat Walters in November.

## **Katie Porter Raises Over \$740,000 in Race to Unseat Mimi Walters**

*With Over a Half Million Cash on Hand, Katie enters 2018 In the Strongest Position to Win the Primary and Defeat Walters*

Irvine -- Leading CA-45 Congressional candidate Katie Porter announced today raising more than \$266,000 in the 4th quarter of 2017, bringing her total fundraising to \$740,000 with over a half million cash on hand from well over 10,000 individual contributors.

Katie has built a strong campaign earning early endorsements from Senators Kamala Harris and Elizabeth Warren and was the first House challenger to receive the endorsement from EMILY's List.

Katie is a nationally renowned consumer advocate who has spent nearly two decades fighting Wall Street banks and powerful financial institutions who cheat families. She was one of the first people to sound the alarm about Wall Street's abuses against homeowners during the mortgage crisis. And she fought tirelessly for Californians against the banks to help secure more than \$18 billion in relief for homeowners harmed during the crisis. Now, she's taking that fight against the powerful special interests to Washington.
