

Dear Friend -

Last week was huge for our campaign - we announced the endorsements of the **California League of Conservation Voters** and two top environmental leaders in the State Senate - Senators Bob Hertzberg and Bob Wieckowski.

Today, I am proud to share **our second TV ad** and to announce that Robert Redford has endorsed my campaign for Lieutenant Governor.

“Eleni Kounalakis is uniquely qualified to serve the interests of all Californians as we continue to lead the country into the 21st century. **I TRUST ELENI** to be a leader in combating climate change and protecting California’s coast from the Trump Administration’s plans to expand offshore oil drilling.”

- Robert Redford - Actor, director, producer, and environmental activist.

Robert Redford is an ardent steward of the environment. His support means so much to me and to this campaign.

The Lt. Governor is one of three members of the State Lands Commission, and when I'm elected, it will be a top priority to protect our coasts, combat climate change, and stop the Trump administration's plans to expand offshore oil drilling here in California.

**Please watch and share our TV ad** so that more voters can hear our message!

At this stage of the campaign, it's all about getting the word out to voters. Please take a moment today to **watch and share our newest ad** on Facebook, Twitter, and any social media platform or Google Group you use.

Thank you!

Eleni

P.S. Please join me in saying enough is enough and **sign my petition** to stand up to Big Oil and the Trump administration and say NO new

offshore oil drilling. Help me send the message that California's coast is not for sale.
