The People of the 58th Assembly District Deserve Better

In the wake of reports claiming that the allegations of unwanted sexual harassment against Cristina Garcia were found to be unsubstantiated, Pedro Aceituno reminds the people of District 58 to not be fooled.

“This doesn't change a thing. The outside attorneys hired to conduct the investigation were hand-picked by Sacramento insiders to protect their own. It is now up to the people of the 58th Assembly District to protect our own. Cristina, you continue to lie to the people of our district. Are you a math teacher or an Assemblymember? You cannot be both,” said Pedro.

“Most disturbing to me is that you very hateful rhetoric against others, including anti-gay slurs and attacks on Asian-American communities. Our nation has hateful rhetoric coming Washington D.C. We don't need that coming from our elected officials, who should embody integrity and honor. We must bring back pride to our communities.”
