

The current Secretary of State along with the Mainstream Media constantly parrot the line that voter fraud does not exist. [Today, I released a short campaign video where I addressed the issue of voter fraud in California.](#)

One of the most popular lines promoting the lie that voter fraud does not exist is that there are no investigations and there are no prosecutions. The Secretary of State is responsible for investigating voter fraud. If there are no investigations, it is because the current Secretary of State is refusing to investigate. As for prosecutions, I am personally aware of almost 1,000 convictions of election fraud. Anyone who follows me on Twitter sees that there is a news article on

election fraud multiple times each week.

As your candidate for Secretary of State, I have proven my willingness to fulfill the duties of the office by investigating potential voter fraud around the state. For those who follow me on Facebook, you have seen multiple videos of me talking about the results of these investigations. To date, I have reported on over 100,000 potential fraudulent voter registrations in the State of California. This of course does not include the 100,000 individuals who have had their voter registration tampered with as a result of the defective Motor Voter rollout.

The current Secretary of State has proven he is incompetent to do the job of maintaining the voter rolls. It seems that every other week another story breaks where we learn that the flawed Motor Voter program mistakenly handled Californian's voter registration. Just yesterday, we learned that [approximately 1,500 people were added to the voter rolls who were not supposed to be registered to vote](#), many were non-citizens. What is a problem is that mail in ballots have been sent. These individuals will be receiving balloting materials.

The current California Secretary of State has proven he won't do his job to investigate potential voter fraud and he is proven he is incompetent in rolling out a defective voter registration system. If you can't do the job, you are not entitled to another four years. Please join me on November 6th in firing the current Secretary of State. Please vote for me, Mark Meuser on November 6th.

How Can YOU Help?

I need your help in getting my message out. If you are on Facebook or Twitter, [please share my videos on social media](#).

It appears that only 1 in 4 Californians will be voting this November. One of the

main reasons why people do not vote is they do not know who to vote for. That is why I would like to encourage you to share this email with all your friends. Another thing that you can do would be to text all your friends who live in California and ask them to please vote for me.

You can also help by writing a letter to the editor or by calling your favorite talk radio host. If we want fair and honest elections, we must all do our part in spreading the word that California needs a Secretary of State who will do his job and investigate and prosecute voter fraud.

Four Weeks Until Election Day:

Four weeks from today, California will be voting. Many Californians will be receiving their mail in ballots this week. My campaign has an aggressive advertising budget over the next few weeks to help get our message out. If you like our campaign commercial and you desire everyone to see that message, [please consider making a campaign contribution today.](#)
