BREAKING: Gil Cisneros Campaign Rebuked for Tampering with Ballots

*Young Kim Campaign Calls on Cisneros
to Stop Tampering and Intimidation
of Registrar Employees*

La Habra- -After the Los Angeles Registrar of Voters rebuked the Gil Cisneros Campaign for physically tampering with ballots, the Young Kim for Congress Campaign called on Cisneros to halt his campaign's tampering and intimidation tactics as his team attempts to sway the election results. Cisneros currently trails by several thousand votes.

The Cisneros Campaign is showing their desperation by spreading lies, intimidating employees, and physically tampering with ballots. Their actions earned a rebuke from the Los Angeles Registrar of Voters for ballot tampering and revealed that they are using underhanded tactics to influence the outcome of this election. A campaign that thought it was on its way to victory wouldn't be spreading lies like the Cisneros Campaign.

The Cisneros Campaign staff has consistently sought to intimidate ballot counters in order to affect how they do their job and slow down the ballot review process in Orange County. This is consistent with Gils approach to his campaign - to bully, file suit, and intimidate at every turn.

Unfortunately for Gil Cisneros, we will not be intimidated. Our staff will continue working diligently to ensure that all valid ballots are counted in a orderly and timely manner," - *Dave Gilliard, Spokesman*
